Minutes Eagle Creek Board Meeting

Present: Tim, Mark, Brian, Mike

Tim presented the financial report and it was accepted as presented.

Waterside Court is having new asphalt put down, after street is milled.

It was decided not to have a fall garage sale association wide.

A discussion was held about the tree trimming that went on in the city easements along the streets. The big pine trees were also trimmed up about 10" from the ground. This was done by city workers at the direction of the arborist Steve Goodwin. It will be done every 7 years.

The entrance markers will be looked into for remodeling or complete replacement. The mortar is deteriorating and the Amber Rd entrance marker is discolored and leaning. Brian is going to contact companies experienced in this type of work to get the ball rolling.

Mike will get a price on cutting back the east side woods line on the large lake. It is becoming overgrown. We already have a bid to cut back the woods line on the west side of small pond.

Having no other business, the meeting was adjourned.

Respectfully submitted,

Mike Avila
